

**PLASTIC PALLET BOX - 1000X1200****SKU:** PUG.b75.F**Category:** [Plastic Pallet Boxes](#)**PRODUCT DESCRIPTION**

Slightly used Eurobin pallet box with an amazing dynamich load capacity of 900kg. This Eurobin 1210-980 has some advantages over the market leader Schoeller Allibert with the Magnum Classic and Magnum Optimum.

The Eurobin has a larger dynamic load capacity of 900kg.

Due to its construction (folded less than 310m) a larger quantity fits in a truck when folded (Magnum Classic folded is 420mm)

Also the opening system works also from the inside. Because of this when (un-) folding the box one does not need to walk around the box to open or close the long sides. This saves time.

Last but not least, all components used in the Eurobin have exactly the same chemical recipe. Because of this it's the easiest box to recycle when after many years it's end-of-life.

**ADDITIONAL INFORMATION**

<b>Ground-size</b>	<a href="#">1000x1200</a>
<b>External dimension</b>	<a href="#">1000x1200xH900</a>
<b>Height when folded (mm)</b>	<a href="#">310</a>
<b>Minimum Order Quantity (MOQ)</b>	<a href="#">50</a>
<b>Condition</b>	<a href="#">second hand</a>
<b>Wall thickness (mm)</b>	<a href="#">10</a>
